

VIRUS TRANSPORT MEDIUM

Stable · Easy · Compatible · Certified

Varied medium types adapt to different application scenarios, effectively stabilizing RNA/DNA during transport & storage, and fully compatible with PCR & Nucleic Acid Testing.

Products Features

Robust Material

- High transparency
- Good sealing
- Freezer-resistant

Customization Service

- Varied combinations
- Customizable options

Multiple Solution Types

- Comprehensive solution types for diverse applications

Order Information

CE - IVDR

Product name	Flexible combination			Kit size
	Medium Type	Volume	Swab	
Disposable Collection Tubes of Virus Samples	Hanks	1mL 2mL 3mL	Nasopharyngeal swab	20 sets/kit 36 sets/kit 50 sets/kit
	PBS		Oropharyngeal swab	
	Inactivated		Cervical brush	
	Cytology medium		Cervical swab	
Sample Preservation Solution	Release reagent		/	50 tubes/kit 100 tubes/kit
Nucleic Acid Release Reagent	Release reagent	1mL	/	50 tubes/kit 100 tubes/kit

SAMPLING SWAB

Efficient Sample Collection · Fast Specimen Release · Non-irritating · Sterile Non-toxic

Nylon Flocked Swab

Compared with traditional swabs, our nylon flocked swabs deliver superior sample adsorption and release performance, making them ideal for diverse specimen collection.

Material

Swabstick: ABS with molded breakpoint

Swab tip: Nylon Flocked

Order Information

Catalog No.	Product Name	Type	Breakpoint	Certification
DS100206P2100	Disposable swab	Nasopharyngeal swab	8.5cm	CE 0197
DS100206P2300		Oropharyngeal swab	8cm	
DS100207P2100	Gynecologic Sampler	Cervical swab	4.5cm	
DS100207P2300		Cervical brush	5cm
